

inReach Solutions for Professionals

YOUR WORKFORCE: SAFE AND CONNECTED ANYWHERE

The inReach® product line from Garmin® is ideal for keeping track of lone worker safety or coordinating logistics in remote locations. Offering affordable, global 2-way connectivity and GPS navigation in one rugged, handheld device, you'll have peace of mind knowing that employees are equipped to request assistance in an emergency, and much more.

SOS

Trigger an interactive SOS, receive delivery confirmation, exchange updates until help arrives. (24/7 SOS monitoring services provided by GEOS; included but optional)

Send and receive text messages with any cell phone number, email address or inReach to inReach.¹

Delivers 100% global coverage through the Iridium satellite network.

Rugged, impact resistant, water rated to IPX7, and a long battery life to keep you up and running.

Get weather forecasts for any location (optional service).

Track personnel or assets with tracking intervals of 10 minutes. Includes GPS coordinates, speed, time, course and elevation.

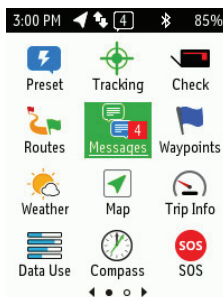

Sync with the free Earthmate® app to view maps on a larger screen, and for easier typing when exchanging messages.

An all-in-one backcountry communication and navigation device. Plan a route, create and navigate to waypoints.

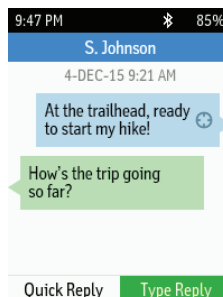

¹ Email, SOS and tracking functions work anywhere in the world; SMS availability may vary by country.

How inReach Devices Work

EASY TO USE HOMESCREEN

Access and view on-screen messages, SOS, location, tracking information and more.

CONVENIENT 160-CHARACTER MESSAGING

Send and receive messages anywhere in the world, and receive confirmation of delivery.

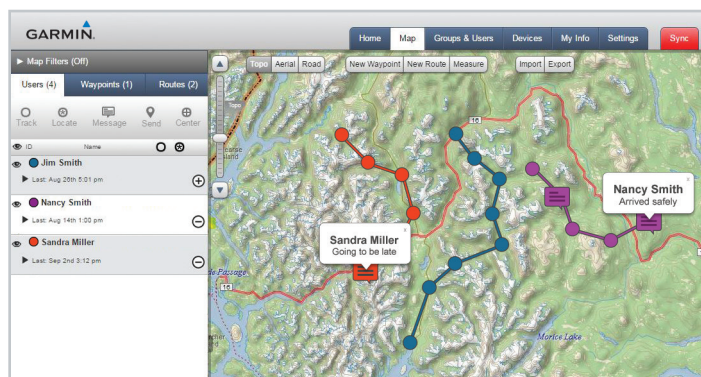

INTERACTIVE SOS COMMUNICATIONS

In the event of an SOS, exchange updates until the situation is resolved.

ENTERPRISE WEB APP

Designed with professionals in mind, the secure, cloud-based portal provides centralized management of inReach devices deployed to employees:

- Centralized management of inReach users and devices.
- Easily view positions and tracks of inReach users anywhere in the world; select tracking intervals.
- Conduct two-way messaging with an entire group or individual inReach users.
- Use the included SOS monitoring service or the optional built in tools to monitor and manage emergency response in-house.²
- Plan routes and create color-coded waypoints for key locations.

² GEOS emergency monitoring and dispatch services are included at no extra cost, however enrollment is optional.

WE HAVE GREAT PLANS FOR EMPLOYERS

Pay-as-you-go inReach Pro plans are great value and ultimately flexible. Pro plans features:

- ✓ The freedom to use allocated data for messaging or tracking
- ✓ Change, cancel or suspend service anytime
- ✓ 24/7 emergency monitoring services (enrollment is optional)

Plans Details	Pro Safety	Pro Lite	Pro Unlimited
Monthly fee	\$22.50	\$42.50	\$75.00
Includes			
Messages	0	75	Unlimited
Tracks	0	Unlimited	Unlimited
Preset messages	Unlimited	Unlimited	Unlimited
Overage			
Per Message	75¢	75¢	Not applicable
Per Track	15¢	Not applicable	Not applicable

Details:

- A \$30 initial activation fee applies to all plans. Plans auto-renew month-to-month until suspended or cancelled.
- If you make changes between billing cycles, the monthly service charge and any allocated text messages will be prorated accordingly.
- After the initial 30-day term, you can suspend your plan as often as you like for just \$4.95/month. There is no fee to unsuspend your plan. While the service is suspended the inReach device cannot transmit, however users retain access to their online account and historical data in the Enterprise web application.
